Intelligent Memory Care

With four locations in Burnsville, Minnetonka, Shakopee and Victoria, Minnesota, Emerald Crest memory care communities are truly inspired by residents and families. **Emerald Crest** offers a specialized assisted living setting for seniors with Alzheimer's-related conditions. Our expertise allows us to create opportunities for your loved ones that go beyond conventional notions of memory care.

Emerald Crest Memory Care Model

The Emerald Crest philosophy is rooted in the belief that individuals with dementia are unique and can flourish in an environment that provides them with opportunities for positive relationships, participation in their daily care and meaningful activities that promote success. Emerald Crest is solely dedicated to memory care and offers unique programming to meet residents' needs:

- Serene environments that are easy to navigate
 - 12-15 residents per house; 2-5 houses per location
 - Rooms surround common space, no long hallways
- Focus on ability rather than disability
 - Houses are designated by stages to provide specific programming and socialization
- Personalized care plan tailored to residents' unique needs
 - Developed by Registered Nurses and Occupational Therapists
- Comprehensive employee training program with qualified professional staff; those with direct care duties must undergo even further training and staff also receives on-going education annually
